Her boyfriend kept the suspect from entering her apartment. During the struggle, the victim's boyfriend sustained injuries. The suspect walked away with his motorcycle. OPD assisted with a perimeter, while EPD used a K9 to search. EPD located subject and transported him to Berkeley City Jail. The suspect was gone on our arrival. An hour later, a victim called to report his vehicle stolen and he could see it driving away. The Vic saw suspects enter an awaiting KIA which was pointed out to officers. Officers attempted to light up the KIA. The KIA fled and officers pursued the vehicle. A few moments later, it was learned the victim was following the pursuing officers in his other vehicle. That information along with the suspect vehicle entering the wrong direction on I-80, Officers canceled the pursuit. Once the victim returned to the scene, officers learned the victim's original stolen vehicle was located unoccupied. The suspect KIA had an unreported switched plate from the original suspicious activity call that was just stolen.

There has been increase in occupied stolen vehicle arrests in the beginning of this year. Several guns have been recovered when suspects were arrested. In addition, multiple recovered stolen vehicles have also been located and either returned to their rightful owners or towed for storage. Our officers have been diligent in patrolling and vigilant with regards to officer and public safety. I am pleased with the proactive work that has gone on with the increase of overall police activity. In response to this and other crimes, our Crime Investigative Detective has partnered with other regional allies to work on a particular group of juveniles we have evidence to believe are responsible for the increase of car thefts, mail thefts and other crimes in the greater Bay Area.
